

What is EXONext Secretome?

EXONEXT is a next-generation regenerative treatment designed to **naturally restore and revitalize** your skin. It's powered by a concentrated blend of **exosomes, growth factors, and cytokines**; potent ingredients that support the skin's ability to heal, renew, and glow from within. By boosting **collagen production** and improving cellular communication, **EXONEXT** helps reduce fine lines, enhance skin texture, and reveal a smoother, healthier, and more radiant complexion.

How Does EXONext work?

The secretome contains **natural healing signals** released by stem cells, including exosomes that act like messengers. They deliver instructions to your skin cells to stimulate collagen, repair damage, and rejuvenate your skin.

What's Inside?

250+

Growth factors

Plant-Derived
Antioxidants

EXONext

SECRETOME

5.8 BILLION PARTICLES

Your Skin's Regeneration Process

TOPICAL APPLICATION

EXONEXT is applied topically with the procedure as a booster or as post-care.

COOL + CALM

Reduces redness, feels refreshing.

PRIMHA BOOST

Deep hydration + anti-inflammatory support.

ACCELERATED REPAIR

Skin regeneration begins immediately.

FOR THE ULTIMATE GLOW: **EXONEXT + PRIMHA**

*For deeper hydration and an anti-inflammatory boost, ask your provider to combine **EXONEXT** and **PRIMHA**, a non-crossed-linked hyaluronic acid that:*

- Intensely boosts hydration.
- Enhances skin firmness and plumpness.
- Gives your skin a glassy, luminous finish.

What You'll Love About EXONext

Speeds up post-treatment healing

Soothes redness and irritation

Deeply hydrates for a dewy glow

Reduces inflammation—even for sensitive skin

Boosts collagen & smooths texture

Enhances the results of your treatments

Who is the Best Candidate?

Patients looking for **non-invasive skin rejuvenation**.

Anyone wanting to improve **fine lines, wrinkles, and overall skin texture**.

Ideal for patients with sensitive, redness-prone skin, **EXONEXT** helps reduce inflammation, calm irritation, and support faster recovery.

Frequently Asked Questions

1 How soon can I expect to see results from the treatment?

EXONEXT reduces inflammation and irritation **immediately post-procedure**. Visible skin improvements can be seen within a week and will continue to be enhanced over the following months.

2 How many sessions do I need for optimal skin rejuvenation?

For optimal results, we recommend **3-4 sessions spaced 4-6 weeks apart**. Maintenance sessions every 3-6 months keep your glow going strong.

3 Can **EXONEXT** be used on other areas besides my face?

Yes, **EXONEXT** can be used on other areas of the body, such as the **neck, décolletage, and hands**, where skin rejuvenation is needed.

4 Is **EXONEXT** safe for all skin types?

Yes, **EXONEXT** is suitable for all skin types, including **sensitive and redness-prone skin**. It's designed to soothe irritation and help with inflammation.
